

# Electricity Invercargill Limited

## Notification of Line Charge Changes

Pursuant to the Electricity Distribution Information Disclosure Determination 2012, Electricity Invercargill Limited hereby gives notice that the following line charges will apply for Installation Control Points (ICPs) as from 1 April 2015.

This line charge notification is for all Domestic customers and Non-Domestic customers up to a contract capacity of 100kVA. Customers over 100kVA are assessed on an individual basis. Changes to prices this year relate to a decrease in the Transmission charges and a reduced return by Electricity Invercargill Limited.

The line charges do not include metering charges and are GST exclusive.

Further information relating to line charges can be found at the following web URL <http://www.powernet.co.nz/index.php?pageLoad=39>

Electricity consumers should note that these are the line charges as charged to the electricity retailers. Individual electricity retailers will make their own decisions whether to adjust their retail prices to consumers to reflect any changes in the line charge.
