

OtagoNet Joint Venture - Lakeland Region Pricing Schedule
Prices Effective from 1 April 2017

Pursuant to the Electricity Distribution Information Disclosure Determination 2012, OtagoNet Joint Venture hereby gives notice that the following line charges will apply for Installation Control Points (ICPs) as from 1 April 2017.

The new and existing line charges for ICPs in the OtagoNet area are shown below. Changes to prices are driven by a change in allocation of Transmission charges. The line charges do not include metering charges and are GST exclusive.

Further information relating to line charges can be found at the following web URL <http://www.otagonet.co.nz/index.php?pageLoad=51>

Electricity consumers should note that these are the line charges as charged to the electricity retailers. Individual electricity retailers will make their own decisions whether to adjust their retail prices to consumers to reflect any changes in the line charges.

Standard Residential Connections				New Prices effective from 1 April 2017			Current Prices Effective to 31 March 2017		
Fixed Prices	Capacity	Description	Code	Per Annum			Per Annum		
				Distribution	Pass-through	Total	Distribution	Pass-through	Total

Residential definition - a residential consumer is where the consumer's metered point of connection to the network is for the purposes of supplying a home (the principle place of residence of the consumer), not normally used for any business activity and not used as a holiday home.

Control Period Demand (CPD) - each general connection ICP greater than 2kVA will have an individually assessed kW demand level calculated each year. The annually assessed CPD level will be effective from 1 April each year.

Summer/Winter

Winter - 1 May to 30 September

Summer - 1 October to 30 April

Losses

400V	Loss Code LLNW02	Loss Factors	Loss Code	Loss Factors
	Winter Day	1.067	Winter Day	1.0000
	Winter Night	1.067	Winter Night	1.0000
	Summer Day	1.067	Summer Day	1.0000
	Summer Night	1.067	Summer Night	1.0000

Notes

+ Unmetered connection

++ Unmetered Builders Temporary Supply must have 20A MCB fitted to switch board.
