

OtagoNet Joint Venture - Lakeland Region Pricing Schedule
Prices Effective from 1 April 2016

Pursuant to the Electricity Distribution Information Disclosure Determination 2012, OtagoNet Joint Venture hereby gives notice that the following line prices will apply for Installation Control Points (ICPs) as from 1 April 2016.

The new and current line prices for ICPs in the OtagoNet - Lakeland region area are shown below. Changes to prices are driven by a change in allocation of Transmission charges. The line prices do not include metering charges and are GST exclusive.

Further information relating to line prices can be found at the following web URL <http://www.otagonet.co.nz/index.php?pageLoad=51>

Electricity consumers should note that these are the line prices as charged to the electricity retailers. Individual electricity retailers will make their own decisions whether to adjust their retail prices to consumers to reflect any changes in the line prices.

Standard Residential Connections				New Prices effective from 1 April 2016			Current Prices Effective to 31 March 2016

Residential definition - a residential consumer is where the consumer's metered point of connection to the network is for the purposes of supplying a home (the principle place of residence of the consumer), not normally used for any business activity and not used as a holiday home. The connection must meet the definition of "Domestic premises" under Section 5 of the Electricity Industry Act 2010.

Control Period Demand (CPD) - each general connection ICP greater than 2kVA will have an individually assessed kW demand level calculated each year. The annually assessed CPD level will be effective from 1 April each year.

Summer/Winter

Winter - 1 May to 30 September
Summer - 1 October to 30 April

Losses

400V

	Loss Factors
Winter Day	1.067
Winter Night	1.067
Summer Day	1.067
Summer Night	1.067

Notes

- + Unmetered connection
- ++ Unmetered Builders Temporary Supply must have 20A MCB fitted to switch board.
