### 1. INTRODUCTION

These Information Disclosure documents are submitted by Electricity Invercargill Limited pursuant to Part 4 of the Commerce Act 1986 in accordance with:

- The Electricity Information Disclosure Determination 2012 (consolidated in 2015), issued 24 March 2015,
- □ The Electricity Distribution Services Input Methodologies Determination 2012 (consolidated 2014), issued 30 March 2015,

### 2. INFORMATION DISCLOSURE DISCLAIMER

The information disclosed in this Information Disclosure package issued by Electricity Invercargill Limited has been prepared in accordance with the Determination listed above.

The Determination requires the information to be disclosed in the manner it is presented.

The information should not be used for any other purposes than that intended under the Determination.

The financial information presented is for the electricity distribution business as described within the Determination.

Due to rounding and automatic calculations in the spreadsheets there may be minor summing variances.

### 3. SCHEDULES

		(	Company Name	Electr	icity Invercargi	
			For Year Ended		31 March 201	.8
This De ir discl	HEDULE 1: ANALYTICAL RATIOS schedule calculates expenditure, revenue and service ratios from the inform terpreted with care. The Commerce Commission will publish a summary an losed in accordance with this and other schedules, and information disclose information is part of audited disclosure information (as defined in section f	d analysis of information d under the other require	disclosed in accord ements of the deter	lance with the ID de mination.	termination. This w	ill include information
	1(i): Expenditure metrics					
8		Expenditure per GWh energy delivered to ICPs (\$/GWh)	Expenditure per average no. of ICPs (\$/ICP)	Expenditure per MW maximum coincident system demand (\$/MW)	Expenditure per km circuit length (\$/km)	Expenditure per MVA of capacity from EDB owned distribution transformers (\$/MVA)
	Operational expenditure	18,281	264	73,259	6,991	30,803

### SCHEDULE 14 MANDATORY EXPLANATORY NOTES

- 1. This schedule requires EDBs to provide explanatory notes to information provided in accordance with clauses 2.3.1, 2.4.21, 2.4.22, and subclauses 2.5.1(1)(f),and 2.5.2(1)(e).
- 2. This schedule is mandatory—EDBs must provide the explanatory comment specified below, in accordance with clause 2.7.1. Information provided in boxes 1 to 12 of this schedule is part of the audited disclosure information, and so is subject to the assurance requirements specified in section 2.8.
- 3. Schedule 15 (Voluntary Explanatory Notes to Schedules) provides for EDBs to give additional explanation of disclosed information should they elect to do so.

#### Return on Investment (Schedule 2)

4. In the box below, comment on return on investment as disclosed in Schedule 2. This comment must include information on reclassified items in accordance with subclause 2.7.1(2).

#### Box 1: Explanatory comment on return on investment

Electricity Invercargill Limited achieved a post-tax WACC of 5.78% which is above the 75<sup>th</sup> percentile estimate of post-tax WACC of 5.72% and a 6.37% vanilla WACC which is above with the 75<sup>th</sup> percentile estimate of vanilla WACC of 6.29%.

No items were reclassified.

#### Regulatory Profit (Schedule 3)

- 5. In the box below, comment on regulatory profit for the disclosure year as disclosed in Schedule 3. This comment must include-
  - 5.1 a description of material items included in other regulated income (other than gains / (losses) on asset disposals), as disclosed in 3(i) of Schedule 3
  - 5.2 information on reclassified items in accordance with subclause 2.7.1(2).

Box 2: Explanatory comment on regulatory profit

Included in other regulated income is an amount of \$52k for line charges to another lines company.

No items were reclassified in the disclosure year.

#### Merger and acquisition expenses (3(iv) of Schedule 3)

- 6. If the EDB incurred merger and acquisitions expenditure during the disclosure year, provide the following information in the box below-
  - 6.1 information on reclassified items in accordance with subclause 2.7.1(2)
  - 6.2 any other commentary on the benefits of the merger and acquisition expenditure to the EDB.

Box 3: Explanatory comment on merger and acquisition expenditure

There were no merger or acquisition expenses incurred in the disclosure year.

#### Value of the Regulatory Asset Base (Schedule 4)

 In the box below, comment on the value of the regulatory asset base (rolled forward) in Schedule 4. This comment must include information on reclassified items in accordance with subclause 2.7.1(2).

Box 4: Explanatory comment on the value of the regulatory asset based (rolled forward)

The calculation of the Regulatory Asset Base was stated using the 31 March 2017 closing figure as a starting point with inflationary indexing over the year to 31 March 2018 plus additions less disposals.

No items were reclassified.

#### Regulatory tax allowance: disclosure of permanent differences (5a(i) of Schedule 5a)

- 8. In the box below, provide descriptions and workings of the material items recorded in the following asterisked categories of 5a(i) of Schedule 5a-
  - 8.1 Income not included in regulatory profit / (loss) before tax but taxable;
  - 8.2 Expenditure or loss in regulatory profit / (loss) before tax but not deductible;
  - 8.3 Income included in regulatory profit / (loss) before tax but not taxable;
  - 8.4 Expenditure or loss deductible but not in regulatory profit / (loss) before tax.

Box 5: Regulatory tax allowance: permanent differences

Income included in regulatory profit / (loss) before tax but not taxable is the \$882k revaluations for the year.

There are no other permanent differences.

#### Regulatory tax allowance: disclosure of temporary differences (5a(vi) of Schedule 5a)

9. In the box below, provide descriptions and workings of material items recorded in the asterisked category 'Tax effect of other temporary differences' in 5a(vi) of Schedule 5a.

Box 6: Temporary differences / Tax effect of other temporary differences (current disclosure year)								
Temporary differences are the tax effect of the difference between the tax and disclosure treatment of capital contribution income.								
Taxable Capital Contributions:	\$	59						
	\$	59						
Tax Rate:		28%						
Temporary Differences	\$	17						

#### Related party transactions: disclosure of related party transactions (Schedule 5b)

10. In the box below, provide descriptions of related party transactions beyond those disclosed on schedule 5b including identification and descriptions as to the nature of directly attributable costs disclosed under subclause 2.3.6(1)(b).

Box 7: Related party transactions

PowerNet Limited is a profit orientated limited liability company owned 50% by The Power Company Limited and 50% by Electricity Invercargill Limited.

PowerNet Limited carries out project management and asset construction to develop Electricity Invercargill Limited's electricity network.

Invercargill City Holdings Limited owns 100% of Electricity Invercargill Limited and provides treasury facility and debt management services to Electricity Invercargill Limited electricity distribution business.

#### Cost allocation (Schedule 5d)

11. In the box below, comment on cost allocation as disclosed in Schedule 5d. This comment must include information on reclassified items in accordance with subclause 2.7.1(2).

#### Box 8: Cost allocation

All costs are directly attributable as all costs were either passed through by PowerNet as agent or were invoiced to Electricity Invercargill Limited.

#### No items were reclassified.

#### Asset allocation (Schedule 5e)

12. In the box below, comment on asset allocation as disclosed in Schedule 5e. This comment must include information on reclassified items in accordance with subclause 2.7.1(2).

Box 9: Commentary on asset allocation

All network assets are directly attributable.

No items were reclassified.

#### Capital Expenditure for the Disclosure Year (Schedule 6a)

- 13. In the box below, comment on capital expenditure for the disclosure year, as disclosed in Schedule 6a. This comment must include-
  - 13.1 a description of the materiality threshold applied to identify material projects and programmes described in Schedule 6a;
  - 13.2 information on reclassified items in accordance with subclause 2.7.1(2),

Box 10: Explanation of capital expenditure for the disclosure year

The materiality threshold applied to identify programmes or projects during the disclosure year was \$100k.

No items were reclassified during the disclosure year.

#### **Operational Expenditure for the Disclosure Year (Schedule 6b)**

- 14. In the box below, comment on operational expenditure for the disclosure year, as disclosed in Schedule 6b. This comment must include-
  - 14.1 Commentary on assets replaced or renewed with asset replacement and renewal operating expenditure, as reported in 6b(i) of Schedule 6b;
  - 14.2 Information on reclassified items in accordance with subclause 2.7.1(2);
  - 14.3 Commentary on any material atypical expenditure included in operational expenditure disclosed in Schedule 6b, a including the value of the expenditure the purpose of the expenditure, and the operational expenditure categories the expenditure relates to.

Box 11: Explanation of operational expenditure for the disclosure year

Reactive and minor maintenance is performed on Electricity Invercargill Limited's transformers and cables and this is classified as refurbishment and renewal maintenance when the work performed is not material in relation to the overall value of the asset.

There was no material atypical expenditure disclosed in Schedule 6b.

#### Variance between forecast and actual expenditure (Schedule 7)

15. In the box below, comment on variance in actual to forecast expenditure for the disclosure year, as reported in Schedule 7. This comment must include information on reclassified items in accordance with subclause 2.7.1(2).

Box 12: Explanatory comment on variance in actual to forecast expenditure

No items were reclassified during the disclosure year. Refer to each classification under point 13 and 14 above.

#### Capital Expenditure on Assets:

The actual expenditure on network assets was 7% below budget.

Consumer connection:

 Net 6% overspend due to portions of large customer connections work carried over, from FY16/17 into FY17/18, balanced by customer deferment of connections from FY17/18 into FY18/19.

System Growth:

• No spend in this category for FY17/18

Asset replacement and renewal:

• Net 7% underspend due to: overspend in major plant refurbishment and protection related initiatives, balanced by reduced spend from reduced scope of works for the 2017/18 stage of a major zone substation project; diversion of field staff to higher priority safety issues.

Asset Relocations:

• Underspend in this small budget due to customer initiated relocation work being deferred by the customers

Quality of Supply:

• Budget was largely un-spent as field staff were diverted to higher priority safety.

Reliability, Safety and Environment:

• Net 20% underspend, as field staff were diverted to higher priority safety issues.

#### **Operational Expenditure:**

Network opex was 4% below budget.

Service interruptions and emergencies:

• 9% overspent with reactive work than expected.

Vegetation management:

• Small reactive budget, went largely unspent.

Routine and corrective maintenance and inspection:

• Net 24% underspend due to less corrective maintenance.

Asset replacement and renewal:

• Net 42% underspend due to diversion of field staff

System Operations and Network Support:

• Within 1% of budget.

Business Support:

• Within 1% of budget.

#### Information relating to revenue and quantities for the disclosure year

- 16. In the box below provide-
  - 16.1 a comparison of the target revenue disclosed before the start of the disclosure year, in accordance with clause 2.4.1 and subclause 2.4.3(3) to total billed line charge revenue for the disclosure year, as disclosed in Schedule 8; and
  - 16.2 explanatory comment on reasons for any material differences between target revenue and total billed line charge revenue.

Box 13: Explanatory comment relating to revenue for the disclosure year

Year ended 31 March 2018:

- Target revenue for the 2017-18 year was \$21,088k. The total billed revenue for the 2017-18 year was \$20,384k, which is \$704k below.
- The electricity consumption was impacted by the unseasonal warm weather during the first half of the year. This reduced the underlying line charge revenue, making it slightly lower (3% variation) than the targeted result.

#### Network Reliability for the Disclosure Year (Schedule 10)

17. In the box below, comment on network reliability for the disclosure year, as disclosed in Schedule 10.

Box 14: Commentary on network reliability for the disclosure year

The SAIDI assessed value for 2017/18 at 27.49, was below the applicable Commerce Commission Limit of 31.13, but above the Commerce Commission Target 24.08 levels.

The SAIFI assessed value for 2017/18 at 0.47 was well below the applicable Commerce Commission Limit of 0.77, and below the Commerce Commission Target level of 0.59.

In accordance with the Issues Register for Electricity and Gas Information Disclosure, issues 447 and 458, EIL has disclosed normalised SAIDI/SAIFI calculated according to the 2012 EDB ID while disclosing limits calculated according to the 2015 DPP.

EIL has disclosed a normalised SAIDI at 46.8 and normalised SAIFI at 0.72 for 2017/18.

2017/18 SAIDI was high relative to the expected long term average due to:

- an unusually high number of high impact third-party caused incidents
  - a single operator error event at a zone substation

Due to the small footprint and underground nature of the network. The probability of an interruption is relatively low However, in the event of an interruption, the number of customers affected tends to be high as a percentage of the total customer base. This inherent variance makes SAIDI & SAIFI difficult to predict for any given year.

Network reliability is compliant with quality requirements under the default price-quality path, however there are inherent limitations in the ability of Electricity Invercargill Limited to collect and record the network reliability information required to be disclosed in Reports 10(i) to 10(iv). Consequently there is no independent evidence available to support the accuracy of recorded faults and control over the accuracy of installation control point ('ICP') data, included in the SAIDI and SAIFI calculations, is limited throughout the year.

#### Insurance cover

- 18. In the box below provide details of any insurance cover for the assets used to provide electricity distribution services, including-
  - 18.1 the EDB's approaches and practices in regard to the insurance of assets used to provide electricity distribution services, including the level of insurance;
  - 18.2 in respect of any self insurance, the level of reserves, details of how reserves are managed and invested, and details of any reinsurance.

Box 15: Explanation of insurance cover

Electricity Invercargill Limited insures its substations, network equipment and buildings.

• Substations and network equipment are insured for \$26.3 million.

Lines and cables are not insured. Electricity Invercargill Limited therefore "self-insures" its lines and cables but does not recognise the cost of self-insurance.

#### Amendments to previously disclosed information

- 19. In the box below, provide information about amendments to previously disclosed information disclosed in accordance with clause 2.12.1 in the last 7 years, including:
  - 19.1 a description of each error; and
  - 19.2 for each error, reference to the web address where the disclosure made in accordance with clause 2.12.1 is publicly disclosed.

Box 16: Disclosure of amendment to previously disclosed information No amendments were disclosed.

# SCHEDULE 14A MANDATORY EXPLANATORY NOTES ON FORECAST INFORMATION

- 1. This Schedule requires EDBs to provide explanatory notes to reports prepared in accordance with clause 2.6.6.
- 2. This Schedule is mandatory—EDBs must provide the explanatory comment specified below, in accordance with clause 2.7.2. This information is not part of the audited disclosure information, and so is not subject to the assurance requirements specified in section 2.8.

# Commentary on difference between nominal and constant price capital expenditure forecasts (Schedule 11a)

3. In the box below, comment on the difference between nominal and constant price capital expenditure for the current disclosure year and 10 year planning period, as disclosed in Schedule 11a.

Box 1: Commentary on difference between nominal and constant price capital expenditure forecasts Inflationary assumptions were used to calculate the nominal prices in the forecast.

# Commentary on difference between nominal and constant price operational expenditure forecasts (Schedule 11b)

 In the box below, comment on the difference between nominal and constant price operational expenditure for the current disclosure year and 10 year planning period, as disclosed in Schedule 11b.

Box 2: Commentary on difference between nominal and constant price operational expenditure forecasts

Nominal Prices are based on publicly available New Zealand Treasury's economic forecast indicated in the Budget Economic and Fiscal Update report released in December 2016:

	2018	2019	2020	2021	2022
Inflator (CAPEX & OPEX)	2.0%	2.1%	2.0%	2.1%	2.0%

Forecasts are in line with the business plan projections and explanations outlined in the Asset Management Plan.

# SCHEDULE 15 VOLUNTARY EXPLANATORY NOTES

- 1. This schedule enables EDBs to provide, should they wish to-
  - 1.1 additional explanatory comment to reports prepared in accordance with clauses 2.3.1, 2.4.21, 2.4.22, 2.5.1 and 2.5.2;
  - 1.2 information on any substantial changes to information disclosed in relation to a prior disclosure year, as a result of final wash-ups.
- 2. Information in this schedule is not part of the audited disclosure information, and so is not subject to the assurance requirements specified in section 2.8.
- 3. Provide additional explanatory comment in the box below.

Box 1: Voluntary explanatory comment on disclosed information

Schedule 9c: Report on Overhead Lines and Underground Cables

- Circuit length by operating voltage
  - in an effort to refine and standardise the process of circuit length calculations, change has been made in reporting conductors that are 'In Service and Under Construction' to just 'In Service'. This has resulted to a reduction in disclosed line length of "6.6kV to 11kV (inclusive-other than SWER)".
  - in prior year disclosures, assumed parameters in estimating the length of rural low voltage lines had not changed since 2012. Recalculation this year resulted to a reduction in disclosed length of "Low voltage (<11kV)".</li>

Initiatives are underway to improve the completeness and accuracy in gathering information and maintaining our asset data base. This exercise may impact the future reporting of quantities in the schedule

### 4. AUDITORS' REPORT

#### INDEPENDENT ASSURANCE REPORT TO THE DIRECTORS OF ELECTRICITY INVERCARGILL LIMITED AND THE COMMERCE COMMISSION

The Auditor-General is the auditor of Electricity Invercargill Limited (the company). The Auditor-General has appointed me, Nathan Wylie, using the staff and resources of PricewaterhouseCoopers, to provide an opinion, on his behalf, on whether the information disclosed in schedules 1 to 4, 5a to 5g, 6a and 6b, 7, the system average interruption duration index ('SAIDI') and system average Interruption frequency index ('SAIFI') information disclosed in Schedule 10 and the explanatory notes in boxes 1 to 12 in Schedule 14 ('the Disclosure Information') for the disclosure year ended 31 March 2018, have been prepared, in all material respects, in accordance with the Electricity Distribution Information Disclosure Determination 2012 (the 'Determination').

#### Directors' responsibility for the Disclosure Information

The directors of the company are responsible for preparation of the Disclosure Information in accordance with the Determination, and for such internal control as the directors determine is necessary to enable the preparation of the Disclosure Information that is free from material misstatement.

#### Our responsibility for the Disclosure Information

Our responsibility is to express an opinion on whether the Disclosure Information has been prepared, in all material respects, in accordance with the Determination.

#### **Basis of opinion**

We conducted our engagement in accordance with the International Standard on Assurance Engagements (New Zealand) 3000 (Revised) *Assurance Engagements Other Than Audits or Reviews of Historical Financial Information* and the Standard on Assurance Engagements 3100: *Compliance Engagements* issued by the External Reporting Board. Copies of these standards are available on the External Reporting Board's website.

These standards require that we comply with ethical requirements and plan and perform our assurance engagement to provide reasonable assurance about whether the Disclosure Information has been prepared in all material respects in accordance with the Determination.

We have performed procedures to obtain evidence about the amounts and disclosures in the Disclosure Information. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the Disclosure Information, whether due to fraud or error or non-compliance with the Determination. In making those risk assessments, we considered internal control relevant to the company's preparation of the Disclosure Information in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

#### Use of this report

This independent assurance report has been prepared solely for the directors of the company and for the Commerce Commission for the purpose of providing those parties with reasonable assurance about whether the Disclosure Information has been prepared, in all material respects, in accordance with the Determination. We disclaim any assumption of responsibility for any reliance on this report to any person other than the directors of the company or the Commerce Commission, or for any other purpose than that for which it was prepared.

#### Scope and inherent limitations

Because of the inherent limitations of a reasonable assurance engagement, and the test basis of the procedures performed, it is possible that fraud, error or non-compliance may occur and not be detected.

We did not examine every transaction, adjustment or event underlying the Disclosure Information nor do we guarantee complete accuracy of the Disclosure Information. Also we did not evaluate the security and controls over the electronic publication of the Disclosure Information. The opinion expressed in this independent assurance report has been formed on the above basis.

#### Independence and quality control

When carrying out the engagement, we complied with the Auditor-General's:

- independence and other ethical requirements, which incorporate the independence and ethical requirements of Professional and Ethical Standard 1 (Revised) issued by the New Zealand Auditing and Assurance Standards Board; and
- quality control requirements, which incorporate the quality control requirements of Professional and Ethical Standard 3 (Amended) issued by the New Zealand Auditing and Assurance Standards Board.

We also complied with the independence requirements specified in the Determination.

The Auditor-General, and his employees, and PricewaterhouseCoopers and its partners and employees may deal with the company and its subsidiaries on normal terms within the ordinary course of trading activities of the company. Other than any dealings on normal terms within the ordinary course of business, this engagement, the annual audit of the company's financial statements, Electricity Distribution Services Default Price-Quality Path Determination 2015 and other regulatory requirements of the Commerce Act 1986, we have no relationship with or interests in the company and its subsidiaries.

#### Qualified Opinion on Schedules 10(i) to 10 (iv)

As described in Box 14 of Schedule 14, there are inherent limitations in the ability of the company to collect and record the network reliability information specifically the interconnection points ('ICP's') affected by an interruption and the duration of the interruption used in calculating the amounts required to be disclosed in Schedules 10(i) to 10(iv). Consequently there is no independent evidence available

There are no practical audit procedures that we could adopt to confirm independently the accuracy of the ICP data used to record the number of ICP's affected and duration of the interruption for the purposes of inclusion in the amounts relating to SAIDI and SAIFI outage statistics set out in Schedules 10(i) to 10(iv). Because of the potential effect of the limitation described above, we are unable to form an opinion as to the accuracy of the data that forms the basis of the compilation of Schedules 10(i) to 10(iv).

In this respect alone we have not obtained all the recorded evidence and explanations that we have required.

In our opinion, except for the matters described above:

- as far as appears from an examination of them, proper records to enable the complete and accurate compilation of the Disclosure Information have been kept by the company;
- as far as appears from an examination, the information used in the preparation of the Disclosure Information has been properly extracted from the company's accounting and other records and has been sourced, where appropriate, from the company's financial and nonfinancial systems; and
- the Disclosure Information has been prepared, in all material respects, in accordance with the Determination.

Nathan Wylie PricewaterhouseCoopers On behalf of the Auditor-General Christchurch, New Zealand 30 August 2018

### 5. DIRECTORS' CERTIFICATE

#### Schedule 18: Certification for Year-End Disclosures

#### Clause 2.9.2

We, Thomas Campbell and Sarah Jane Brown, being directors of Electricity Invercargill Limited certify that, having made all reasonable enquiry, to the best of our knowledge-

- a) the information prepared for the purposes of clauses 2.3.1, 2.3.2, 2.4.21, 2.4.22, 2.5.1, 2.5.2; and 2.7.1 of the Electricity Distribution Information Disclosure Determination 2012 in all material respects complies with that determination; and
- b) the historical information used in the preparation of Schedules 8, 9a, 9b, 9c, 9d, 9e, 10, and 14 has been properly extracted from the Electricity Invercargill Limited's accounting and other records sourced from its financial and non-financial systems, and that sufficient appropriate records have been retained.

In respect of related party costs and revenues recorded in accordance with subclauses 2.3.6(1) (when valued in accordance with clause 2.2.11(5)(h)(ii) of the Electricity Distribution Services Input Methodologies Determination 2012), 2.3.6(1)(a) and 2.3.6(1)(f), we certify that, having made all reasonable enquiry, including enquiries of our related parties, we are satisfied that to the best of our knowledge and belief the costs and revenues recorded for related party transactions reasonably reflect the price or prices that would have been paid or received had these transactions been at arm's-length.

Thomas Campbell

Sarah Jane Brown

30 August 2018
