

**OtagoNet Joint Venture - Lakeland Region Pricing Schedule**  
Prices Effective from 1 April 2018

Pursuant to the Electricity Distribution Information Disclosure Determination 2012, OtagoNet Joint Venture hereby gives notice that the following line charges will apply for Installation Control Points (ICPs) as from 1 April 2018.

The new and existing line charges for ICPs in the OtagoNet area are shown below. Changes to prices are driven by a change in allocation of Transmission charges. The line charges do not include metering charges and are GST exclusive.

Further information relating to line charges can be found at the following web URL <http://www.otagonet.co.nz>

Electricity consumers should note that these are the line charges as charged to the electricity retailers. Individual electricity retailers will make their own decisions whether to adjust their retail prices to consumers to reflect any changes in the line charges.

Standard Residential Connections				New Prices effective from 1 April 2018			Current Prices Effective to 31 March 2018			
Fixed Prices	Capacity	Description	Code	Per Annum			Per Annum			
				Distribution	Pass-through	Total	Distribution	Pass-through	Total

**Residential definition** - a residential consumer is where the consumer's metered point of connection to the network is for the purposes of supplying a home (the principle place of residence of the consumer), not normally used for any business activity and not used as a holiday home. The connection must meet the definition of "Domestic premises" under Section 5 of the Electricity Industry Act 2010.

**Control Period Demand (CPD)** - each general connection ICP greater than 2kVA will have an individually assessed kW demand level calculated each year. The annually assessed CPD level will be effective from 1 April each year.

**Summer/Winter**

Winter - 1 May to 30 September  
Summer - 1 October to 30 April

**Losses**

400V

Loss Code	Loss Factors	Loss Code	Loss Factors
Winter Day	1.067	Winter Day	1.0000
Winter Night	1.067	Winter Night	1.0000
Summer Day	1.067	Summer Day	1.0000
Summer Night	1.067	Summer Night	1.0000

**Notes**

+ Unmetered connection

++ Unmetered Builders Temporary Supply must have 20A MCB fitted to switch board.
