

Electricity Invercargill Limited

Half Hour Metered Individual Customer Prices from 1 April 2022

Pursuant to The Electricity Distribution Information Disclosure Determination 2012.

Pursuant to clause 2.4.19.(1)(b) of the Electricity Distribution Information Disclosure Determination 2012, new charges reflect an increase in Transmission charges and an increase in Distribution charges as determined by the Commerce Commission in its Default Price-Quality Path. Changes to total line prices also reflect the changes in individual ICP's peak demand and consumption levels as metered in the previous 12 month assessment period.

The reported line charges do not include metering charges and are GST exclusive.

		New Fixed and Variable Prices							Previous Fixed and Variable Prices

Variable Prices

The variable rates shown apply to the Day MWh Sales as metered at the customer meters.

Day is defined as 0700 - 2300 hours.

Power Factor Charges

All charges assume a power factor of not less than 0.95 lagging.

Non-Domestic customers may have a data logger installed to assess their power factor. If a non-domestic customer has a power factor of less than 0.95 lagging and after a period of 12 months notice has not been corrected then an annual power factor charge of \$80 per kVA will be applied.

The kVA is based on the total kVA less kVA at 0.95 power factor. The kVA will be assessed on the average of the 12 highest kWH half hour periods during the assessment period.

Application of the power factor charge will be at the sole discretion of the Distributor.
