PURPOSE

To describe PowerNet's commitment to minimising harm to our planet in the delivery of our services.

SCOPE

It is a requirement that all employees, contractors and visitors comply with the requirements of this policy and our Environmental Management standards at all times.

POLICY

PowerNet Limited is committed to taking care to minimise harm to our planet in the delivery of our services. In striving to meet this commitment PowerNet Limited will:

- Comply with all applicable laws and regulations.
- Support the principle of reduce, recycle, and re-use.
- Safeguard the environment for communities within which we operate through prevention of environmental impact and the considered risk management of all our activities.
- Continuously improve our Environmental Management System (EMS).
- Work towards achieving certification to ISO14001 across our business.
- Focus on improving our environmental sustainability performance and report annually on progress.
- Actively promote environmental awareness through education for all employees.
- Support the inclusion of environmentally sustainable purchasing policies and procedures.
- Seek to reduce our carbon footprint.
- Identify innovative environmental solutions for our services.
- Partner with others, to provide cleaner and renewable energy sources.
- Ensure that all significant environmental hazards and risks are identified, assessed and controlled in delivering our business objectives.
- Conduct our business in a way that all employees understand that they are responsible for PowerNet's environmental performance in their day-to-day activities.
