Power Factor Charges

All charges assume a power factor of not less than 0.95 lagging.
 Non-Domestic customers may have a data logger installed to assess their power factor. If a non-domestic customer has a power factor of less than 0.95 lagging and after a period of 12 months notice has not been corrected then an annual power factor charge of \$80 per kVA will be applied.

The kVA is based on the total kVA less kVA at 0.95 power factor. The kVA will be assessed on the average of the 12 highest KWH half hour periods during the assessment period.

Application of the power factor charge will be at the sole discretion of the Distributor.
